

# The Baptist Resource Network's SPIRITUAL HEALTH ASSESSMENT

Normal questions church leaders ask:

Our church has scheduled a Spiritual Health Assessment (SHA) to measure where we are individually and as a church in the three areas of missional engagement, intentional discipleship, and leadership development.

The SHA is a short 3-page questionnaire (with 30 ranking questions total) for our congregation, pastor and staff to complete. (It should take only about 20 minutes.)

The BRN will anonymously combine all the results from our church to help our church leadership evaluate areas where our church can grow in order to make a greater Kingdom impact.

Please plan to participate as scheduled.  
Thank you!
